NANTYGLO & BLAINA URBAN DISTRICT COUNCIL.

To the Chairman and Members of the
Health Committee..

I have the honour to present my Annual Report as Medical
Officer of Health for the year 1954.

The tables are self explanatory.

It will be seen that once again there have been no cases
of Diphtheria notified annually.

| | | | | | | | | |
|------|---|----|------|---|---|------|---|---|
| 1941 | - | 17 | 1946 | - | 3 | 1951 | - | 0 |
| 1942 | - | 42 | 1947 | - | 0 | 1952 | - | 0 |
| 1943 | - | 7 | 1948 | - | 0 | 1953 | - | 0 |
| 1944 | - | 1 | 1949 | - | 0 | 1954 | - | 0 |
| 1945 | - | 0 | 1950 | - | 0 | | | |

These figures are proof of the inefficiency of active
immunisation combined with general public health measures. It
is fervently hoped that similar results will be obtained with
B.C.G. vaccination in the case of Tuberculosis.

Regarding Tuberculosis the Nantyglo and Blaina District is
served by the Chest Clinic at Blaina Hospital held on Tuesdays.
This clinic is for the clinical examination, X-raying, skin testing
of suspected cases and for the contacts of known cases.

All newly notified cases of Tuberculosis are visited by the
Medical Officer of Health and Sanitary Inspector and a complete
environmental report is sent to the Council Medical Officer and the
Chest Physician. Continual contact is made with the latter
particularly where it is felt that bad housing conditions and other
factors make it necessary for some cases to receive priority in
admission to sanatorium. Where housing defects are found the
Sanitary Inspector takes up the matter with the owner of such
premises.

Advice is given on the Medical Officer's visit re prevention
of spread of infection in the home and this is further enlarged
by the visit of the Health Visitor.

The members of the household where a case has occurred are
advised to attend the Chest clinic for skin test and X-ray.

The Public Health Department supplies a liberal quantity of
disinfectant for use in cleaning sputum receptacles and infected
linen of the patient and terminal disinfection is carried out by
the Sanitary Inspector as required.

There is also the availability of skin testing of all children
up to age 5 at the Infant Welfare Centres and it is hoped that in the
very near future the same will be available for school children.
This latter is available for school leavers and any suspicious case
is referred after preliminary X-ray to the Chest Physician.

SECTION A.

Statistics and Social Conditions of the Area.

| | |
|-----------------------------|--------------|
| Area of District. | 3,862 acres. |
| Estimate of Population 1921 | 16,453 |

W A T E R S U P P L Y.

The water supply of this district is supplied in bulk by the Ebbw Vale District Council. The ~~service~~ reservoir being situated at Llangynidr Mountain, Beaufort. The water is chlorinated and is filtered by slow sand filters.

Since my last report the water scheme is now completed. This scheme consisted of the laying of new water mains, the construction of a service reservoir and a break pressure tank.

There are still houses within the district without an adequate supply of water, this appears to be due to the private services being corroded.

1. (a) Approximate number of houses supplied from public mains direct. - 3,259.
(b) By means of stand-pipes. - 3.
2. Approximate population supplied from public mains - 11,208.

WATER SAMPLES TAKEN DURING THE YEAR.

Twenty-three samples from the main supply were taken for bacteriological examination during the year. Sixteen of which were found to be satisfactory and seven were not quite satisfactory due to slight contamination with Coliform bacteria of the non-faecal type.

Two samples were also taken for Chemical analysis.

SWIMMING BATH.

At present there are no publicly or privately owned swimming baths in the area.

During the summer months the ponds in the district are still used, in spite of the fact that they are dangerous and are quite unfit to be used as swimming pools.

DRAINAGE.

Drainage-sewerage is on the water carriage system. The subsidiary sewers are connected up with the Western Valley (Mon) Main Trunk Sewer, which discharge into the sea at low water west of the mouth of the river Usk.

PUBLIC CLEANSING.

Public Cleansing and refuse collection is controlled by the Council's Engineer & Surveyor.

Refuse is deposited at the Forge Site, Nantyglo.

Although there is a collection of refuse three times a week, householders in the area, despite warning, still deposit their refuse on open spaces near their homes. This, in my opinion, will not be remedied until there is more co-operation between all concerned, and each householder has suitable refuse bins.

The Council during the year again spent considerable time in removing dumps of ashes which had been tipped on unauthorised sites.

INSPECTION OF MEAT AND OTHER FOODS

Meat Inspection

An additional Sanitary Inspector is employed by the Council on full-time meat Inspection at the Brynmawr Ministry of Food Abattoir. Slaughtering at this abattoir is carried out for the Urban areas of Brynmawr, Blaenavon, Nantyglo & Blaina, Abertillery and Abercarn.

The following table shows the number of animals slaughtered and inspected and the amount of meat and offal condemned.

CARCASES INSPECTED AND CONDEMNED.

| | Cattle
excluding
Cows | Cows | Calves | Sheep
and
Lambs | Pigs |

number inspected affected
by Tuberculosis. | 4.7 | 17.9 | - | - | 2.8 |

$$E_{\text{eff}} = \frac{\sum_{j=1}^n E_j}{n}, \quad S_{\text{eff}} = \sqrt{\frac{\sum_{j=1}^n (E_j - E_{\text{eff}})^2}{n-1}},$$

H O U S I N G

1. Inspection of Dwelling Houses during the year:

- | | | | |
|-----|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| (1) | (a) | Total number of dwelling houses inspected for housing defects (under Public Health and Housing Act 1936). | 196 |
| | (b) | Number of inspections made for the purpose. | 196 |
| (2) | (a) | Number of dwelling houses included under (1) above which were inspected and recorded under the Housing Consolidated Regulations, 1925-1932. | 15 |
| | (b) | Number of inspections made for the purpose. | 30 |
| (3) | | Number of dwellings found to be in a state so dangerous or injurious to health as to be unfit for habitation ¹ | 15 |
| (4) | | Number of dwelling houses exclusive of those referred to under preceding sub-head found not to be in all respects reasonably fit for human habitation. | |

11. Remedy of defects during the year without service of formal notices.

| | |
|------------------------------------------------------------------------------------------------------------------------------|----|
| Number of defective dwelling houses rendered fit in consequence of informal action by the Local Authority or their Officers. | 27 |
|------------------------------------------------------------------------------------------------------------------------------|----|

111. Action under the Statutory Powers during the year:

(a) Proceedings under Sections 9, 10, 11, 12 and 16 of the Housing Act 1936.

- | | | | |
|-----|-----|--------------------------------------------------------------------------------------|------|
| (1) | (a) | Number of dwelling houses in respect of which notices were served requiring repairs. | Nil. |
| (2) | | Number of Closing Orders served. | 1 |
| | | Number of Demolition Orders served. | 2. |
| (3) | | Number of dwelling houses which were rendered fit after service of formal notice. | |
| | (a) | By Owners | Nil. |
| | (b) | By Local Authority. | Nil. |

(b) Proceedings under Public Health Acts:

- | | | | |
|-----|-----|-----------------------------------------------------------------------------------------------------|------|
| (1) | (a) | Number of dwelling houses in respect of which notices were served requiring defects to be remedied. | 4 |
| (2) | | Number of dwelling houses in which defects were remedied after service of formal notice: | |
| | (a) | By Owners | 3 |
| | (b) | By the Authority in default of Owner. | Nil. |

Mathematics

1. The first part of the problem is to find the value of x which satisfies the equation $x^2 + 2x - 3 = 0$. This can be done by factoring the quadratic expression on the left-hand side of the equation.

2. The second part of the problem is to find the value of y which satisfies the equation $y^2 - 5y + 6 = 0$. This can be done by factoring the quadratic expression on the left-hand side of the equation.

3. The third part of the problem is to find the value of z which satisfies the equation $z^2 + 7z + 12 = 0$. This can be done by factoring the quadratic expression on the left-hand side of the equation.

4. The fourth part of the problem is to find the value of w which satisfies the equation $w^2 - 8w + 15 = 0$. This can be done by factoring the quadratic expression on the left-hand side of the equation.

5. The fifth part of the problem is to find the value of v which satisfies the equation $v^2 + 9v + 14 = 0$. This can be done by factoring the quadratic expression on the left-hand side of the equation.

6. The sixth part of the problem is to find the value of u which satisfies the equation $u^2 - 10u + 21 = 0$. This can be done by factoring the quadratic expression on the left-hand side of the equation.

7. The seventh part of the problem is to find the value of t which satisfies the equation $t^2 + 11t + 28 = 0$. This can be done by factoring the quadratic expression on the left-hand side of the equation.

8. The eighth part of the problem is to find the value of s which satisfies the equation $s^2 - 12s + 35 = 0$. This can be done by factoring the quadratic expression on the left-hand side of the equation.

9. The ninth part of the problem is to find the value of r which satisfies the equation $r^2 + 13r + 40 = 0$. This can be done by factoring the quadratic expression on the left-hand side of the equation.

10. The tenth part of the problem is to find the value of q which satisfies the equation $q^2 - 14q + 49 = 0$. This can be done by factoring the quadratic expression on the left-hand side of the equation.

11. The eleventh part of the problem is to find the value of p which satisfies the equation $p^2 + 15p + 54 = 0$. This can be done by factoring the quadratic expression on the left-hand side of the equation.

10. $\frac{1}{2} \times 10^6$

SHOPS ACT 1950.

No action has been found necessary during the year under provisions of the Shops Act 1950.

A part-time Shops Inspector officiates in the area.

MARINE STORES.

There are five registered Marine Stores in the district. These are inspected periodically.

RAG FLOCK AND OTHER FILLING MATERIALS ACT 1951.

The above regulations came into force on the 1st November, 1951.

No rag flock is made or sold in this area.

FACTORIES ACT 1937 and 1948.

Number of Factories on Register December 1953 - 20

Number of Inspections. - 9

WRITTEN NOTICES.

(1) Want of cleanliness - Nil.

(2) Insufficient sanitary conveniences. - 1

RODENT CONTROL.

(Prevention of Damage by Pests Act 1949)

There is a full-time Rodent Officer employed in the Sanitary Inspectors Department. The table on the following page shows the work on rodent control carried out during the year.

PREVENTION OF DAMAGE BY PESTS ACT, 1949.
REPORT FOR YEAR ENDED 31st DECEMBER, 1954.

| | Type of Property. | | | | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|---------------------------------------------------|----------------------------------------------------------|-------------------------------------|-------------------------|

| 8. Number of cases in which default action was taken following the issue of a Notice under Sect. 4 of the Act. | - | - | - | - | - |
| 9. Legal Proceedings (see overleaf) | - | - | - | - | - |
| 10. Number of "Block" control schemes carried out. | - | 6 | - | 6 | - |

MILK SUPPLY.

MILK AND DAIRIES REGULATIONS 1949.

- (a) Number of persons registered as milk distributors. 9
- (b) Number of dealers' issued authorising the use of special designation, "Pasteurised" . 9
- (c) Number of dealers' licences issued authorising the use of special designation, "pasteurised" (Tuberculin Tested) 9

All milk sold in the area is imported into the district by means of road and rail transport, and is distributed in bottles.

The following milk samples were taken during the year.

| | <u>Pasteurised</u> | <u>(Tuberculin
Tested
and Pasteurised.</u> | <u>Total</u> |
|----------------------|--------------------|----------------------------------------------------|--------------|
| No. of samples taken | 6 | 6 | 12 |
| Satisfactory | 5 | 6 | 11 |
| Unsatisfactory | 1 | - | 1 |

ICE CREAM (HEAT TREATMENT)

REGULATIONS 1947.

There are in the area Twenty premises registered for the sale of manufacture of Ice Cream.

They are as follows:

1. Manufacture and sale:

| | |
|-------------------|---|
| Heat Treatment | 1 |
| Complete cold mix | 1 |

2. Premises registered for the

| | |
|-------------------|-----------|
| Sale of Ice Cream | 18 |
| Total | <u>20</u> |

With the exception of the two local manufacturers, all Ice Cream is imported into the district, and is pre-packed.

During the year, 23 samples were taken; the results were as follows:

| <u>Number of Samples taken.</u> | <u>Grade 1.</u> | <u>Grade 2.</u> | <u>Grade 3.</u> | <u>Grade 4.</u> |
|---------------------------------|-----------------|-----------------|-----------------|-----------------|
| 12 | 11 | 1 | - | - |

MILK SUPPLY.

MILK AND DAIRIES REGULATIONS 1949.
